WILLIAM WORDSWORTH (1770-1850), Britain's Poet Laureate from 1843 until his death, limned some of the finest verse in the English language, tender poetry on human love and the natural world-some of his most memorable lines describe England's beautiful Lake District, where he spent much of his life, as filtered through his sensitive and serious heart. Beloved of readers for centuries, Wordsworth's timeless verse is a treasure to enjoy for the nourishment of one's own soul, and to share with other lovers of language.

Experiments for Engineering Physics Courses* Giulio Mazzi, Paolo Ronchese, Pierluigi Zotto, 2022-01-01 Physics Laboratory for Engineering students in Padova University is organised in Real Time Laboratory (RTL) mode, that is, it is based on a measurement system featuring sensors, interface and computer as main instruments. The RTL approach allows the students to face both the experimental side, by proposing the preparation of an experiment and its setup, and the analytic side, by performing quantitative and qualitative data analysis. The outlined didactic proposal generates a learning process, rather than a teaching one. Such a choice allows to provide to the students useful tools which allows them to move on from a real complex phenomenology to the abstraction of a Physics law.
