But Nick has a few problems that he needs to deal with: like his loveless marriage, the pimps who torment him, the honest man who is running against him in the upcoming elections and the women who adore him. And it turns out that Nick isn't anything like as amiable, easy-going or as slow as he seems. He's as sly, brutal and corrupt as they come.

Bruges, Cradle of Capitalism, 1280-1390 James M. Murray, 2005-01-20 Teeming with merchants from all over Europe, medieval Bruges provides an early model of a great capitalist city. Bruges established a sophisticated money market and an elaborate network of agents and brokers. Moreover, it promoted co-operation between merchants of various nations. In this book James Murray explores how Bruges became the commercial capital of northern Europe in the late fourteenth century. He argues that a combination of fortuitous changes such as the shift to sea-borne commerce and the extraordinary efforts of the city's population served to shape a great commercial centre. Areas explored include the political history of Bruges, its position as a node and network, the wool, cloth and gold trade and the role of women in the market. This book serves not only as a case-study in medieval economic history, but also as a social and cultural history of medieval Bruges.

Gospels in the Schools, C. 1100 C. 1280 Beryl Smalley, 1985-07-01 This book focuses on the New Testament by surveying commentaries and lectures on the Gospels of the twelfth and thirteenth centuries against a background of ecclesiastical and social history. >

The Twelfth and Thirteenth Centuries, 1066-c.1280 Barbara F. Harvey, Paul Langford, 2001 This volume provides a readable and authoritative account of the history of the British Isles from the Norman Conquest of England, to the eve of the Welsh against Edward I in 1282. At the beginning of the period, much of Britain belonged, as did Ireland, to the Vikings. The transformation of the archipelago by the end of this period is explored and explained in this volume. Six sharply focused chapters consider the fundamental changes that occurred in this period: the changing political and social structure and the adaptability of the aristocracy instrumental in these changes; the reforms that affected the ecclesiastical landscape; and the effects on economic life of the growth of a monetised economy. The influence of the natural environment and communications on life in medieval times are discussed in the Introduction. The approach is comparative, bringing out both the sharp contrasts between the experience of the several parts of the British Isles and the similarities. With chapters contributed by a team of experts, Harvey explores the interactions between the parts of the British Isles to provide a clear and incisive history of this fascinating period.

The Rolls and Register of Bishop Oliver Sutton, 1280-1299 Rosalind M. T. Hill, 1970-01-01 This is the sixth of eight volumes containing the record of the institutions performed in the archdeaconry of Lincoln by Oliver Sutton, bishop of Lincoln from 1280 to 1299. As a scholar he appears to have been competent rather than distinguished; but he was a thoroughly good man, a trained canonist who was determined to uphold the law, and an administrator at once efficient and

humane. For nearly twenty years he devoted himself almost completely to his diocese, ruling it with unending patience and a determined sense of justice. Among other fascinating details, his register describes incidents in the course of which clerks were maltreated and sometimes killed, rights of sanctuary violated and churches desecrated by bloodshed.
