International Antitrust Law & Policy: Fordham Corporate Law 1998 Barry Hawk,1998-06-01 Every October the Fordham Corporate Law Institute brings together leading figures from governmental organizations, leading international law firms and corporations and academia to examine and analyze the most important issues in international antitrust and trade policy of the United States, the EU and the world. This work is the most definitive and comprehensive annual analysis of international antitrust law and policy available anywhere. Each annual edition sets out to explore and analyze the areas of

antitrust/competition law that have had the most impact in that year. Recent hot topics include antitrust enforcement in Asia, Latin America: competition enforcement in the areas of telecommunications, media and information technology. None of the chapters are merely descriptive, all raise questions of policy or discuss new developments and assess their significance and impact on antitrust and trade policy. All chapters, if necessary, are revised and updated before publication. As a result, the reader receives up-to-date practical tips and important analyses of difficult policy issues. The Annuals are an indispensable guide through the sea of international antitrust law. The Fordham Corporate Law Proceedings are acknowledged as simply the most definitive US/EC annual analyses of antitrust/competition law published.
