*The Causes of the English Revolution 1529-1642* Lawrence Stone,2017-04-21 Dividing the nation and causing massive political change, the English Civil War remains one of the most decisive and dramatic conflicts of English history. Lawrence Stone's account of the factors leading up to the deposition of Charles I in 1642 is widely regarded as a classic in the field. Brilliantly synthesising the historical, political and sociological interpretations of the seventeenth century, Stone explores theories of revolution and traces the social and economic change that led to this period of instability. The picture that emerges is one where historical interpretation is enriched but not determined by grand theories in the social sciences and, as Stone elegantly argues, one where the upheavals of the seventeenth century are central to the very story of modernity. This Routledge Classics edition includes a new foreword by Clare Jackson, Trinity Hall, Cambridge.

Religious Toleration and Social Change in Hamburg, 1529-1819 Joachim Whaley,1985-08-08 The emergence of religious toleration was one of the main features of the development of Western society after the Reformation. While previous research has concentrated largely on ideas of toleration, this study of the Lutheran Imperial City of Hamburg analyses the way in which those ideas were received and gradually implemented. Hamburg was one of the most dynamic mercantile centres of early modern Europe. It attracted substantial numbers of Catholics, Calvinists and Jews. Dr Whaley examines the factors, which influenced the often uneasy relationship with the Lutheran majority. He illuminates the interaction between religion, politics and social change, and shows the impact of international movements and German Imperial legislation on local controversies. An analysis of the major religious and secular festivities, like the centenaries of the Reformation, illuminates those deep-rooted political and ideological factors which cancelled out the obvious economic and humanitarian arguments in favour of open toleration.

Written by English radical Simon Fish, the Supplication argues for the abolition of the monasteries and the redistribution of their wealth. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it.
