**Unlaced for Good** Satish Arora,2022-12-31 For me, education was not my fate due to prevailing circumstances. My learning had been out of school from childhood. My learning process continued as I was growing after dropping out of high school. I did some self-studies on electronics and automobiles as and when I needed help through books and youtube. I am a Hindi medium-high school dropout, and English has been my second language for three years in school. It is more to do with courage and willpower than with academic qualifications. Failures are the key to success in life. Decisions in a hurry often result in failures, but a calm mind pays off.

The Moguls of India Satish Gupta,2018-03 Indians in India and elsewhere relentlessly talk of corruption in their country. India ranks 76 in Corruption Perception Index of 168 countries. To be fair to India, every other country has same problem to grapple with. It appears to be endemic, a worldwide phenomenon. It is said that if all the 25 countries in Europe were rid of corruption, their GDP would double. In Australia, the perceptions of both public and private corruption increased dramatically in 2016. This book is a story about corruption in India, how it works. A fiction written with a sense of humour.

**India Lockdown** Satish Govind Saykar,2021-05-24 The present novel depicts the life of a narrator in one of the small cities during the period of lockdown that was declared to win the battle against Corona Epidemic.Chinese things are generally duplicate and temporary for use, but this virus was something different. Permanent. Ever dying. The country, that makes the cheap things that could live for a short while only, can produce such a virus that can swallow the whole world..... do you think that we are rascals. Do you see the word 'silly' on our foreheads? We expected you to talk on Corona, the steps taken by you to control the spread of Corona. We expected you to declare package for the farmers whose milk is unsold, the vegetables are destroyed and thrown out of the fields. We expected the package for the workers. We expected you to talk on whether you will definitely end the lockdown. We had expected you will declare some policy about the workers who are walking for hundreds of miles without having food to eat. But what did you say? 'Taali Bajao, Thaali Bajao, Ghanti Bajao.' And now light the lamps. What kind of lamps you had lighten in last six years. If you had done it, you would not have asked us to light the lamps. Our decision is final. Final means final. We won't switch off the lights and lighten the lamps. Final.Most of

the people said that Modi had extended the lockdown up to 3rd May; because he had to show the public that he had done something different. The Chief Ministers of Odisha, Punjab, Maharashtra and Bihar had extended the lockdown upto 30th April. So he might have done it. Then the question arises why didn't he declare the extension of lockdown? Was he waiting for others to declare it? The central government finally said that the air and railway transport will not open before 3rd May, 2020. And whole nation was drowned in darkness, i.e., Lockdown-2. The workers, professionals, soldiers and farmers in the country contributed their level best to the development of India. What was their fault? They were working on their own, helping their family members. The arrival of Corona infected people had brought holocaust in their life. Their daily routine was hampered. They were locked where they were. If this was the situation, didn't our authorities know that people have gathered there? Why didn't they close the programme and sent people back to their countries? Or did the government wanted the things to happen? If the organizers are punished or prosecuted, what will be done with the officers and security agencies that were responsible for that? As the Corona entered India, the first thing that was closed was the temples, mosques and gurudwaras that is the place of worship was closed. If the Gods are real, why don't they free their believers from the disease? Even no God all over India revolt against the lockdown. We must remember that we have created Gods, and not the Gods created us. So we have to save ourselves. God is no one to save us; but these people had belief in their God for whom they were ready to die, they were ready to break the law of the land.

*Handbook on Characterization of Biomass, Biowaste and Related By-products* Ange Nzihou, 2020-02-17 This book provides authoritative information, techniques and data necessary for the appropriate understanding of biomass and biowaste (understood as contaminated biomass) composition and behaviour while processed in various conditions and technologies. Numerous techniques for characterizing biomass, biowaste and by-product streams exist in literature. However, there lacks a reference book where these techniques are gathered in a single book, although such information is in increasingly high demand. This handbook provides a wealth of characterization methods, protocols, standards, databases and references relevant to various biomass, biowaste materials and by-products. It specifically addresses sampling and preconditioning methods, extraction techniques of elements and molecules, as well as biochemical, mechanical and thermal characterization methods. Furthermore, advanced and innovative methods under development are highlighted. The characterization will allow the analysis, identification and quantification of molecules and species including biomass feedstocks and related conversion products. The characterization will also provide insight into physical, mechanical and thermal properties of biomass and biowaste as well as the resulting by-products.

*Latin American Dendroecology* Marín Pompa-García, J. Julio Camarero, 2020-03-14 Latin America is a megadiverse territory hosting several hotspots of plant diversity and many types of forest biomes, ecosystems and climate types, from tropical rainforest to semi-arid woodlands. This combination of diverse forests and climates generates multiple responses to ecological changes affecting the structure and functioning of forest ecosystems. Recently, there have been major efforts to improve our understanding of such impacts on ecosystems processes. However, there is a dearth of studies focused on Latin-American forest ecosystems that could provide novel insights into the patterns and mechanisms of ecological processes in response to environmental stress. The abundance of "New World" tree species with dendrochronological potential constitutes an ideal opportunity to improve the ecological state of knowledge regarding these diverse forest types, which are often threatened by several impacts such as logging or conversion to agricultural lands. Thus, detailed information on the dendroecology of these species will improve our understanding of forests in the face of global change. Accordingly, this book

identifies numerous relevant ecological processes and scales, ranging from tree species to populations and communities, and from both dendrochronological and dendroecological perspectives. It offers a valuable reference guide for the exploration of long-term ecological interactions between trees and their environmental conditions, and will foster further research and international projects on the continent and elsewhere.

*Doing Nothing Is No Longer an Option* Jenny Booth Potter, 2022-10-25 During a bus ride with a group of fellow college students, Jenny Booth Potter came to a life-changing realization. She decided that racism in all its forms—in policies and systems, in organizations and churches, in neighborhoods and families—could no longer be tolerated. And even though Jenny didn't know what to do about racism, she was certain of one thing: doing nothing is no longer an option. That declaration Jenny made to her peers was more than seven words uttered on a bus. It was a vow, a lifetime commitment to seek racial justice. With candor and humility, Jenny shares her very imperfect but relentless journey of growing in awareness of racism, of reckoning with her own white privilege, and of learning how to be an antiracism advocate alongside her young family. If you're anything like Jenny was on that bus—overwhelmed by the enormity of racism and compelled to do something, but uncertain if you can actually make any difference—then this book is for you. Join Jenny and see for yourself what everyday

antiracism looks like.
