**Ana Rotter, Susana P. Gaudêncio, Marlen Ines Vasquez, Arita Dubnika**

*Bibliography of Semiotics, 1975-1985* Viktoria Eschbach-Szabo, 1986-01-01 This bibliography of semiotic studies covering the years 1975-1985 impressively reveals the world-wide intensification in the field. During this decade, national semiotic societies have been founded all over the world; a great number of international, national, and local semiotic conferences have taken place; the number of periodicals and book series devoted to semiotics has increased as has the number of books and dissertations in the field. This bibliography is the result of a dedicated effort to approach complete coverage.

*Plug the marine litter tap* Blidberg, Eva, Leander, Elin, 2017-03-13 Marine litter is a growing environmental problem where especially plastic material is accumulated in the seas where it will fragment to smaller pieces. The purpose of the presented pilot study is to raise awareness amongst officials at municipalities and authorities about the need to reduce the presence of litter in the marine environment and to give ideas/suggestions on how this can be done. The project has therefore developed a "Plug the Marine Litter Tap"-approach, which together with local knowledge and experience, can be used to identify sources of marine debris by using existing statistics. Södertälje is used as a pilot area where we give examples on indicators for marine litter in the urban environment and proposed measures for each indicator. We hope that this will encourage municipalities to reflect on how preventive measures against marine litter can be incorporated in local waste management plans and become part of their regular routine

**Transitions Between Contexts of Mathematical Practices** Guida de Abreu, Alan Bishop, Norma C. Presmeg, 2006-04-11 This book discusses mathematics learners in transition and their practices in different contexts; the institutional and socio-cultural framing of the transition processes involved; and the communication and negotiation of mathematical meanings during transition. Providing both empirical studies and significant theoretical reflections, it will appeal to researchers and postgraduate students in mathematics education, cultural psychology, multicultural education, immigrant and indigenous education.

**Nordiskt samarbetsprogram för miljö och klimat 2019-2024**, 2018-12-06 De nordiska länderna har under många år haft ett framgångsrikt samarbete inom miljö- och klimatområdet, något som bidragit till tydliga framsteg både i Norden och internationellt. Samtidigt har utmaningarna de senaste åren blivit fler och större, vilket gör samarbetet allt viktigare. Under perioden 2019-2024 kommer de nordiska länderna att samarbeta för en hållbar utveckling i Norden, inom EU och internationellt. Tillsammans kommer länderna att driva på för ett ambitiöst genomförande av internationella miljö- och klimatavtal, med särskilt fokus på Parisavtalet, samt arbeta för ett starkt miljö- och klimatregelverk inom EU. De nordiska länderna ska fortsätta vara föregångsländer i klimatomställningen. Genom det nordiska miljö- och klimatsamarbetet kommer vi att arbeta för att stoppa förlusterna av den biologiska mångfalden och bidra till ett hållbart nyttjande av våra naturresurser. Tillsammans ska vi också arbeta för att påskynda omställningen till en cirkulär ekonomi som bidrar till att konsumtion och produktion sker inom naturens gränser. Andra viktiga samarbetsområden är arbetet för att minimera riskerna av kemikalier och farliga ämnen, samt att minska tillförseln av plast i havet. Jämfört med tidigare programperioder så stärks också samarbetet kring hållbara städer, klimatanpassning och grön finansiering.

Havets ressourcer Bo Riemann, 2017-03-14 Rent vand, blæt flag ved strandene og fisk i havet har stor betydning for os

alle. Men de danske have og vores godt 7.000 km kystområder er ikke kun til lystfiskeri og solbadning. Havet omkring Danmark er også en vigtig ressource for udviklingen i erhverv og samfund, og vi bygger vindmølleparkere, øger skibstrafikken og lokker flere og flere turister til. Blandt meget andet. Mens vi gerne vil sikre gode udviklingsmuligheder for de maritime erhverv, skal vi tage hensyn til klima og miljø. Det blå hav er ikke en uudtommelig ressource, og pladsen er trang i de danske farvande. Hvem, der fremover må udnytte de begrænsede arealer, er et patrængende spørgsmål. I Havets ressourcer præsenterer otte forskere den nyeste viden om havets betydning og potentiale for økonomi, jobskabelse og velfærd. De stiller skarpt på en række vækstområder, tegner muligheder, begrænsninger og konflikter op og viser, hvorfor det er så vigtigt at holde fast i havet som en værdifuld og bæredygtig ressource.

The South African Shipping News and Fishing Industry Review, 1994

Büro Destruct (Firm), 2001 Raw Fish is far more than a compilation of contemporary Japanese graphic design. Next to the graphics, the book presents and portrays the artists in their personal living and working environment, i.e. usually one small room. In Raw Fish, Swiss designer Lopetz explores how Japanese culture and way-of-life mold the very particular aesthetics which uniquely sway between Japanese tradition and Western influence, between playful and at the same time puristic, reduced and perfect.

**Når havets aktører opsamler affald i havet: Fjernelse af barrierer i nordiske småsamfund** Weber, Katrine, Winther Engelsbak, Laura, 2021-04-12 Available online: <https://pub.norden.org/temanord2021-517/> Denne rapport præsenterer analyser af barrierer og potentialer for opsamling af affald fra havet i fem nordiske småsamfund; Bornholm, Grønland, Island, Færøerne og Åland. Rapporten er udformet på baggrund af en spørgeskemaundersøgelse samt kvalitative interviews med småsamfundsaktører inden for fiskeri og sejlads samt havne og lokale myndigheder. I det kvalitative og kvantitative materiale er der identificeret udfordringer, behov, motivationer, ønsker og gode eksempler, som er omsat analytisk til lokale såvel som tværgående barrierer og anbefalinger. Anbefalingerne er rettet mod at skabe bedre betingelser og incitamenter for øget affaldsopsamling i havet og vedrører bl.a. optimering af modtagefaciliteter. Analyserne for de respektive småsamfund kan læses selvstændigt, men det anbefales, at man orienterer sig på tværs af hensyn til uddybning, nuancering og inspiration.

## Unveiling the Energy of Verbal Art: An Mental Sojourn through **Marint**

In a world inundated with monitors and the cacophony of instantaneous communication, the profound power and emotional resonance of verbal beauty frequently diminish into obscurity, eclipsed by the continuous assault of sound and distractions. However, situated within the lyrical pages of **Marint**, a charming function of literary brilliance that impels with organic thoughts, lies an remarkable journey waiting to be embarked upon. Written with a virtuoso wordsmith, that mesmerizing opus guides readers on a psychological odyssey, lightly revealing the latent possible and profound affect embedded within the intricate internet of language. Within the heart-wrenching expanse of this evocative examination, we will embark upon an introspective exploration of the book is central themes, dissect their interesting publishing design, and immerse ourselves in the indelible impression it leaves upon the depths of readers souls.
